

POWER SOURCE Plastic ABS Enclosures with PC Clear Lid

Outline

The Power Source PBOX ABS/PC plastic enclosures are a cost-effective solution that are easy to customise and load with equipment. The sides and lid are ideal for printing and labelling. The grey ABS plastic is resistant to many chemicals, offers IP66 ingress protection and is flame-retardant to UL94-V2. With an impact rating IK-08 and using UV stabilised material, the range has many sizes to suit general industrial applications.
